Jennah Dalais

Dear Sir/Madam

I am writing to express my strong interest in the UI/UX Designer position at Swan Insurance. As a recent graduate from Open University of Mauritius with a Ba (hons) degree in Graphic Design and Multimedia, I believe that I possess the necessary skills and strengths to excel in this role.

During my studies, I focused extensively on user-centered design principles, wireframing, prototyping, and visual design. My proficiency in tools such as Adobe XD, Figma, and Adobe Photoshop has enabled me to design cohesive and functional user experiences. I have successfully completed several projects, including designing websites for Wildzie and Zestyle, where I applied my skills in layout design, usability testing, and user interface aesthetics. These experiences have honed my ability to balance aesthetics with functionality, ensuring an optimal user experience. I am particularly drawn to Swan because of its commitment to innovation and user-centric design. I am eager to contribute to the team by bringing fresh perspectives and a strong work ethic. I am confident that my dedication to creating meaningful digital experiences aligns with the values and vision of Swan. In addition to my skills and strengths,

I enjoy innovation and love to experiment with different ideas. I am known for inspiring and devising original, thought-provoking concepts. I have cultivated skills in social media, process improvement and process development through diverse experiences. These talents, along with my passion for this field, align with the qualities you desire. I excel in a workplace that promotes a culture of consensus-driven and high-energy teamwork.

Your Sincerely,
Jennah Dalais
